Abstract Previous studies have explored the predictors of business unit performance in multiple-business firms and investigated the extent of the effect of industry, corporate, and business unit on the performance of a business unit. These studies have focused almost. 10 Hidesuke Takata, Effects of industry forces, market orientation, and marketing capabilities on business performance: An empirical analysis of Japanese manufacturers from 2009 to 2011, Journal of Business Research, 2016, 69, 12, 5611 1 Piotr Tr pczy ski, Marian Gorynia, A double-edged sword? The moderating effects of control on firm capabilities and institutional distance in explaining foreign affiliate performance, International review, 2017 There are five main workforce trends: a rural/urban maldistribution, a need for more specialists, public hospital staffing difficulties, increasing female practitioners and under-representation of indigenous practitioners. Abstract: This paper presents a general approximation method for characterizing download in a two-country dynamic general equilibrium model. The method can be easily adapted to most dynamic general equilibrium models, it applies. 13 Xiaohui Liu, Lan Gao, Jiangyong Lu, Eleni Lioliou, Environmental risks, localization and the overseas subsidiary performance of MNEs from an emerging economy, Journal of World Business, 2016, 51, 3, 356 The authors present a critical review of the methodology underlying some well-known country risk ratings. Their assessment is based on theoretical considerations and on computational work with empirical material. The findings suggest that the information.
